Style Guide.

Body - My body will contain an image to support the ideas that are included in the content with the Welcoming message.

font-family – sans-serif;

font-size- 14px;

Font color- black;

Background-color – white;

Paragraphs<p> – I will have two paragraphs right beside my image inside the main giving brief information about the page along with the welcome message

Font-family: monospace:

Font-size: 20px;

Color: crimson;

Header<h1> – my header includes the company logo which has a link inside which will take you to the home page form any other page. Header also has all the Nav links included to navigate to all the pages within the website.

Color: red;

Text-align: center;

Lists<ol li> – Since, it is going to be the website that sells item, it needs different lists within the website like product lists, design lists, flavor lists etc. to choose form.

Color- black;

Table – I will not include any table in my webpage as it is not required.

Links<a> – All my nav links will be 'drop down' type of links where the drop-down menu will appear when someone hover over the links whereas the links in the site -map will change color when someone hover over it.

Color: darkcyan;
